

To the Gerry's

I Waqas Raza, authorize the following person on my behalf to collect my passport and other documents that I submitted for the sweden tourist visa. I live in Multan so its inconvenient for me to come to Lahore just to collect these documents. It would be really helpful if you can handover the documents to the authorized person.

Authorized Person

Name: _____

Cnic: _____

My cnic's copy must be attached to this document for the verification.

You can contact me at my number 0326-2215344 or 0304-8346944 for confirmation.

CNIC: 36302-7946039-1

Passport: JA9890391

Best Regards,

Waqas Raza

Summary

I am a Full Stack PHP Laravel and JavaScript Developer.

- 5 years of professional development experience in Laravel/PHP.
- Proficient in Developing REST APIs.
- Development experience in React & MERN Stack
- Hands-on AWS, and Docker experience.

I am also experienced in Bootstrap, TailwindCSS, Webpack/Vite, firebase, MySQL, and jQuery. I can code responsive websites. Here are some of my previous Laravel-based projects I worked on

<https://hello-demo.com> (Laravel, Vuejs, Socket.io, jQuery)

<http://www.irelandhotels.com/> (Laravel, PHP, jQuery, JavaScript)

<http://www.bargainbreaks.ie/> (Laravel, JavaScript, jQuery)

Here is my GitHub repo <https://github.com/waqasraza123> which contains some of my open-source projects developed mainly in Laravel, React, MERN, and core PHP.

Experience

Full Stack Web Developer

Upwork

Jun 2014 - Nov 2022 (8 years 6 months)

I developed several projects from scratch to completion while collaborating with different teams across the globe.

Main Highlights from my Upwork journey:

- 1- PHP websites and custom modules.
- 2- Laravel with complete command on Eloquent, Controllers, Middlewares, Service Containers, Facades, Dependency Injection, and writing custom packages.
- 3- Python for scrapping purposes.
- 4- Javascript, jQuery, VueJS, React.
- 5- WordPress Complete website development & custom plugin and theme development.
- 6- Restful APIs Implementation and Integration.
- 7- Bootstrap, Tailwind for UI.

PHP Web Developer

Delivery Hero

Jun 2021 - Feb 2022 (9 months)

I joined Delivery Hero as a PHP Developer to maintain and develop new websites under the umbrella of the DH network. DH was a really fun and productive place to work.

My Responsibilities and main achievements:

- Developed the custom template theme in roots/sage framework.
- Used Tailwind CSS for front-end responsive designs based on Figma.
- Redeveloped corporate websites based on new designs.
- Created reusable PHP-based modules and components.
- Fixing bugs, and improving current components.
- Integrated vuejs and replaced jQuery into current themes for new components development.

Laravel and VueJs Developer & Team Lead

Hello Demo

Jan 2018 - May 2019 (1 year 5 months)

[Remote Job]

Hello Demo is a music-sharing platform between artists and labels/friends. The company is based in Spain and I was hired for a full-time job via UpWork. I executed the following tasks during my Laravel Developer & Team Lead Position:

- Managing the team of full-stack developers & native mobile app developers.
- Assigning tasks to the entire team on Asana.com
- Managing branches on git and merging after testing
- Database design and architecture
- PSDs into Laravel Blade
- Uploading, sharing of tracks.
- Payments (Stripe and PayPal)
- Controlling and creating shares(required to upload and share songs with labels) distributed among the system
- Real-time chat system
- Restful APIs for the mobile apps
- I deployed the website on AWS through Github.
- Added real-time chat using nodejs and sockets.io
- Frontend, landing pages are developed in WordPress, Backend and the entire functionality is developed in Laravel.
